

COMPUTERS & STRUCTURES, INC.

STRUCTURAL AND EARTHQUAKE ENGINEERING SOFTWARE

Training Course on CSI ETABS Analysis and Design of Building Structures

Call for Application

The Institute of Earthquake Engineering Research (IEER) is going to conduct a training course on CSI ETABS Analysis and Design of Building Structures starting from March 13, 2015. Applications are invited from the eligible candidates in prescribed format. The main aim of this course is to empower the professional engineers with the practical knowledge in basic structural analysis and seismic design of building structures. The software tool ETABS will be used for practical applications in building analysis and design. It is hope that the training course will provide confidence among the engineers for developing the appropriate models of the structures, analyzing for seismic loads, and designing the structures for appropriate safety levels.

Organized By:

Institute of Earthquake Engineering Research (IEER)
Chittagong University of Engineering and Technology (CUET)
Chittagong 4349, Bangladesh
www.cuet.ac.bd

Eligibility for Application:

Applicant must have a B. Sc. Engineering Degree in the field of Civil Engineering/ Earthquake Engineering / Civil and Environmental Engineering or any other relevant branch. The students studying in the final year of B. Sc. Engineering can also apply. However, they have to submit their certificate of studentship from the concern head of the department.

Registration Fees:

2000BDT
(Enrolled Student of CUET)

4000 BDT
(Regular Candidate)

Number of Participants:

50 (2 Batches)

Course Duration:

12 Classes
(1 Class Per Week)

Application Deadline:

25 February 2016

How to apply:

Download your application form from ieercuet.weebly.com and submit your application package by the deadline. Form can be also collected from IEER during official opening hours.

Registration Period:

06-10 March 2016
