

Editorial Message

International Journal of Integrated Sciences and Technology (IJIST) is an open access interdisciplinary peer-reviewed journal covering a wide range of research in the areas of Physics, Chemistry, Mathematics, Engineering and Technology. The journal will provide a platform for academicians, researchers and engineers to promote new issues and developments in different areas of Physics, Chemistry, Mathematics, Engineering and Technology. The scope includes a wide range of subjects including physics, chemistry, mathematics, nanoscience and nanotechnology, clean and renewable energy, electrical and electronics engineering, computer science and engineering, bioengineering, mechanical and civil engineering, metallurgical and materials engineering, and much more. The journal publishes original, unpublished papers and review articles in the above mentioned fields. Being an open access journal it offers high visibility for the published work, easy access to a broad readership. The journal aims to be the voice of the worldwide community of scientists and engineers. Authors will receive the following benefits:

- Electronic submission of articles
- Free color where justified
- Distinguished editorial board
- Journal's availability in online and print editions
- One copy of printed journal at free of cost

The **International Journal of Integrated Sciences and Technology (IJIST)** policy is to publish original and unpublished research work, initially biannually. The journal does not wish to receive any papers on research work that has already been reported in parts or contains already published text, data, figures, tables or other illustrations or any copyright materials whatsoever that has been submitted or accepted for publication either in a journal or conference proceedings elsewhere in any form, in print or in electronic media. It is the sole responsibility of authors to ensure that all manuscripts are new, 100% original and unpublished in any form any media or language, shall not infringe upon or violate any kind of copyrights of others and does not contain any plagiarized, fraudulent and improperly attributed materials.
