JOB VACANCY AT WALTON GROUP

Date: 17/05/2021
To
The Vice Chancellor
Office of the Vice Chancellor
Chittagong University of Engineering & Technology, Chittagong
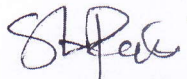

Dear Sir,

It is our great pleasure we would like to inform you that Our Organization (**Walton Group**), a fast-growing multi-industry company in the country with an excellent working environment and corporate culture is looking for a group of professional **Firmware Engineer, Software Engineer, and PCB Designer** to execute complete embedded/business solution/product manufacturing project.

WALTON Group design, develop and deliver embedded Software/firmware for a variety of devices running without a high-level operating system such as Windows or Linux. As a best Electronics Industry, we need more of these skills and resources in house to develop and test a wide range of embedded firmware solutions.

Chittagong University of Engineering & Technology, Chittagong continues its well-earned reputation as one of Bangladesh's great teaching and research universities. We are always inspired by the shared sense of purpose that people show for the success of your university and your students. Our long recognized commitment to providing accessible and flexibles options fully engage students, providing opportunities and inspiration that transform lives and open doors to fulfilling and successful career pathways.

Therefore, with the help of this letter we have tried to grasp your attention towards the Walton's **Electronics, IOT** Product Segment, Products like RAM, ROUTER, PSU, UPS, MOUSE, KEYBOARD, DESKTOP, LAPTOP etc. , We do Mechanical Design, PCB Design, BIOS design and Process Engineering. Your collaboration can make a difference in shaping opportunities for tomorrow's leader as we work to create a brighter future for everyone. Please refer potential candidate to the below sign person.

Sincerely,

Sanjay Kumar Roy (ID-43097)
